APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the source. It is understood that the 0.20 c.f.s., herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to a beneficial use. A suitable measuring device must be installed and accurate measurements of the water placed to a beneficial use must be included in the proof of such use when filed. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit is subject to the condition that the permittee must ensure that wildlife which have customarily used such water will have access thereto, NRS 533.367.

The duty of this permit is limited to 22.4 acre-feet annually for the 40 residences. The duty for fire protection, recreation, and fish propagation will be 122.3 acre-feet annually.

This permit is not supplemental to Permit 42335. The water allowed herein is for use in 40 homes and grounds not yet built and also for fish propagation and recreation.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.20 cubic feet per second, but not to exceed 144.7 acre-feet annually.

Work must be prosecuted with reasonable diligence and be completed on or before March 26, 1984

Proof of completion of work shall be filed before April 26, 1984

Application of water to beneficial use shall be made on or before March 26, 1989

Proof of the application of water to beneficial use shall be filed on or before April 26, 1989

Map in support of proof of beneficial use shall be filed on or before April 26, 1989
